

HeartSine samaritan® PAD 500

With CPR advisor

Defibrillation is easy, CPR is the hard part...

The HeartSine samaritan® PAD 500P provides all the advantages of the 300P with the addition of an innovative CPR advisor. Regardless of whether it is a lay person or a professional rescuer, the AHA/ERC guidelines place a greater emphasis on the importance of CPR and advocate the prompt initiation of effective bystander CPR to significantly reduce mortality due to out-of-hospital Cardiac arrest. HeartSine can now provide a device to support these guidelines by the introduction of **the HeartSine samaritan PAD 500P with CPR Advisor.**

Easy-to-follow Visual and Voice Prompts

Built-in confidence. The samaritan PAD 500P uses an Impedance Cardiogram (ICG) to assess the effectiveness of the CPR.

User-friendly. Easy-to-understand visual and voice prompts guide a user through the entire process.

Always ready. A System Status Ready Indicator flashes to show that the complete system is operational and ready for use. Device automatically runs self check each week.

Visual indicators let the user know if effective CPR is being administered.

Push harder/Begin CPR

Push Harder

Good Compr

Voice prompts let the user know if chest compressions are being given correctly. Aural "clicks" help the user keep time.

Compact in Size, Long on Ability

Durable. The samaritan PAD 500P resists shock and vibration and carries an IP56 Rating, the industry's highest rating against dust and moisture ingress. It also carries a 7-year unit warranty.

Advanced technology. The samaritan PAD 500P utilizes proprietary electrode technology, advanced and stable firmware, and proprietary SCOPE™* Biphasic Technology (an escalating and low-energy waveform that automatically adjusts for patient impedance differences) to assess rhythm and recommend defibrillation if necessary.

Other AED footprints

Advanced technology balanced against the demands of real world use. At HeartSine, our innovation changes lives. And saves lives.

Real Economy for the Real World

Two parts, one expiration date. Pad-Pak™ cartridge combines battery and electrode pads, with one expiration date to monitor.

Low cost of ownership. Cartridge has a shelf life of 4 years from date of manufacture, offering significant savings over other defibrillators that require separate battery and pad units.

Pad-Pak and Pediatric-Pak with pre-attached electrodes.

The HeartSine PAD's built-in intelligence and unique pediatric Pad-Pak ensure the appropriate energy level is delivered for children.

The CPR Advisor is deactivated when the Pediatric-Pak is in use.

*Self-Compensating Output Pulse Envelope technology automatically compensates energy, slope and pulse envelope for the patient.
