

Ozzie 911 Oscillating Monitor

STYLE 911

The Ozzie 911 Oscillating Monitor is a top-of-the-line option for your firefighting and hazmat situation needs. This powerful water cannon operates with 350 gpm for high performance attack while maintaining effectiveness when left alone. This gives your personnel more flexibility to work a situation efficiently without dedicating an individual to the monitor. This 911 Portable Oscillating Monitor's unique water-driven motor sweeps back and forth smoothly to provide cooling and protection, even when left unmanned. This oscillating monitor is suited for use in hazmat situations, protecting exposures, and attacking fires.

Features

The Ozzie Oscillating Monitor operates by itself to provide greater flexibility by protecting exposures while personnel work elsewhere. Its unique water driven motor sweeps the outlet back and forth in a smooth, wave-like motion to provide cooling and protection while unmanned. The Ozzie 911 Oscillating Monitor is suited for hazmat situations, protecting exposures, and attacking fires.

- Adjustable sweeping range (30° each side of center)
- Vertical travel from 35° to 90° above horizontal
- On/Off knob can stop oscillation at any point
- 2.5" NH inlet/1.5" NH outlet
- Built-in pressure gauge
- Uses High Range Turbojet or Assault nozzle tips
