## Installation

- Ensure that the surface is clean and dry, free of oils, sand or dust
- Release a part of tape liner
- Apply this part of the tape to the surface and continue removing the liner gradually
- The full adhesive strength is achieved after 48 hours after installation, try to avoid heavy use of the tape during this time
- Considering various surfaces & application, the actual user shall perform his own tests to ensure that the product is suitable for his application and that it meets his demands
