

## Products

### Spill Containment Products :-

#### Spill Containment products :-

To help maintain a cleaner, safer workplace environment, Spill Tech has developed a complete line of high-tech sorbents & spill containment products for almost every leak and spill application. There are more than 350 Spill Tech® Sorbents to choose from including mats, pads, rolls, socks, pillows, pans, drum top pads, booms & kits.

#### Spill Booms :-

SpillTech® Absorbent Oil-Only Booms feature a strong mesh outer sleeve over a poly sock skin filled with highly-sorbent polypropylene. Filler won't shed and Booms won't sink, even when saturated with oil. A nylon rope and sturdy hardware ensure long-lasting durability and easy retrieval. As they repel water, Booms won't sink, even when saturated with oil.

#### Spill Kits :-

Spills happen no matter how hard you try to avoid them. Forklifts knock over drums, tanks are punctured and transporters leak and drip. It is important to have the right sorbents on-hand when these spills occur to eliminate the slip-and-fall hazard. A quick response is the first order of business – and your best weapon – in the fight against spills. SpillTech® Spill Kits are packed with quality SpillTech® Products to help you clean up fast and comply with regulations.

#### Oil Absorbent Pads :-

MeltBlown Mat , Sonic Bonded & Fine Fiber Pads quickly absorb oil for effective cleanup of petroleum-based spills on land or water.

Polypropylene fibers are left in their natural hydrophobic state. These hydrophobic fibers repel water (and float) while only absorbing oils and other hydrocarbons.

#### Universal Absorbent Pads :-

Grunge-hiding Gray signifies universal sorbency for oils, coolants, solvents and water. Universal Mat Pads control spills and overspray to help keep floors dry and safe.

#### Hazmat Absorbent Pads :-

100% polypropylene Mat absorbs any type of caustic, hazardous or unknown liquid – including acids, bases, solvents and chemicals. Color-coded Safety Yellow for fast identification; know exactly what you're reaching for in an emergency spill situation. When hazardous liquids spill, use HazMat Sorbents for quick, efficient response. These polypropylene MeltBlown Mat Pads soak up acids, bases and unknown fluids fast.

#### Oil Absorbent Roll :-

SonicBonded Mat Roll controls spills and overspray to help keep floors dry and safe.

A random assembly of large-diameter MeltBlown poly fibers creates a lofty layer. Mat absorbs high volumes of liquid fast. Great for catching overspray or soaking up spills.

#### Universal Roll :-

SonicBonded Mat Roll controls spills and overspray to help keep floors dry and safe. Grunge-hiding Gray signifies universal sorbency for oils, coolants, solvents and water.

A random assembly of large-diameter MeltBlown poly fibers creates a lofty layer. Mat absorbs high volumes of liquid fast. Great for catching overspray or soaking up spills.

#### Hazmat Roll :-

When hazardous liquids spill, use HazMat Sorbents for quick, efficient response.

100% polypropylene Mat quickly absorbs nearly any type of caustic, hazardous or unknown liquid – including acids, bases, solvents and chemicals. Color-coded Safety Yellow for fast identification; know exactly what you're reaching for in an emergency spill situation.

#### Oil Absorbent Socks :-

Polypropylene-filled Oil-Only Socks contain and soak up petroleum-based fluids fast while repelling water.

By selectively absorbing petroleum-based liquids and not water, these polypropylene-filled Socks take in more oil and can be left on the job longer. They also float for cleanup of waterborne hydrocarbons.

Ideal for surrounding spilled fluids or wrapping around leaky machines. Easy and convenient to put into place. Contain spills to keep fluids from spreading into larger areas and becoming slippery hazards. Flexible to conform around machine bases and offer a snug fit with no seepage.

#### Universal Absorbent Socks :-

Polypropylene-filled Oil-Only Socks contain and soak up petroleum-based fluids fast while repelling water.

By selectively absorbing petroleum-based liquids and not water, these polypropylene-filled Socks take in more oil and can be left on the job longer. They also float for cleanup of waterborne hydrocarbons.

Ideal for surrounding spilled fluids or wrapping around leaky machines. Easy and convenient to put into place. Contain spills to keep fluids from spreading into larger areas and becoming slippery hazards. Flexible to conform around machine bases and offer a snug fit with no seepage.

#### Hazmat Socks :-

Polypropylene-filled Oil-Only Socks contain and soak up petroleum-based fluids fast while repelling water.

By selectively absorbing petroleum-based liquids and not water, these polypropylene-filled Socks take in more oil and can be left on the job longer. They also float for cleanup of waterborne hydrocarbons.

Ideal for surrounding spilled fluids or wrapping around leaky machines. Easy and convenient to put into place. Contain spills to keep fluids from spreading into larger areas and becoming slippery hazards. Flexible to conform around machine bases and offer a snug fit with no seepage.

#### Oil Absorbent Pillow :-

Use SpillTech® Oil-Only Pillows to absorb high-volume leaks and spills of oil and other petroleum-based liquids on land or water.

Pillows are easy to place in hard-to-reach areas – use under machines and leaky hydraulic hoses or wedge in corners cramped for space.

Ideal for spill response. Easy to toss into action. Pillow's large surface area speeds the absorption process and shortens the overall response time on land or water.

#### Universal Pillow

Use SpillTech® Universal Pillows to absorb high-volume leaks and spills of oils, coolants, solvents or water.

Pillows are easy to place in hard-to-reach areas – use under machines and leaky hydraulic hoses or wedge in corners cramped for space.

Ideal for spill response. Easy to toss into action. Pillow's large surface area speeds the absorption process and shortens the overall response time.

#### Hazmat Pillow :-

100% polypropylene Pillows quickly absorb nearly any type of caustic, hazardous or unknown liquid – including acids, bases, solvents and chemicals. Color-coded Safety Yellow for fast identification; know exactly what you're reaching for in an emergency spill situation.

Ideal for spill response. Easy to toss into action. Pillow's large surface area speeds the absorption process and shortens the overall response time.

#### Oil Absorbent Boom :-

Strong mesh outer sleeve encases a poly sock skin filled with highly-sorbent polypropylene. Filler won't shed and Booms won't sink, even when saturated with oil.

A nylon rope and sturdy hardware ensure long-lasting durability and easy retrieval.

Durable, easy-to-use connectors provide a simple and efficient way to link Sock/Net Booms together and create a containment system big enough to handle almost any size spill on water. Clip together with metal connector hardware.

#### Oil Only Spill Kit :-

Includes a variety of sorbents to handle spills of oil and other petroleum-based fluids - while repelling water; pre-packed in an X-rated DOT-approved Gallon OverPack. Self-contained Kit stores sorbent products for easy access as needed for spill control; saves time when quick response is necessary.

Twist-on, double-wall lid with closed-cell gasket provides sealed and secure closure to protect sorbents from moisture, dirt and damage. Rust- and corrosion-free 100% polyethylene is durable to withstand rough handling.

#### Universal Spill Kit :-

Includes a variety of sorbents to handle spills of oils, coolants, solvents or water; pre-packed in an X-rated DOT-approved Gallon OverPack. Self-contained Kit stores sorbent products for easy access as needed for spill control; saves time when quick response is necessary.

Twist-on, double-wall lid with closed-cell gasket provides sealed and secure closure to protect sorbents from moisture, dirt and damage. Rust- and corrosion-free 100% polyethylene is durable to withstand rough handling. Easy-to-move Kit can be transported via standard material handling equipment.

#### Hazmat Kit :-

Includes a variety of sorbents to handle nearly any type of caustic, hazardous or unknown spill - including acids, bases, solvents and chemicals; pre-packed in an X-rated DOT-approved Gallon OverPack. Self-contained Kit stores sorbent products for easy access as needed for spill control; saves time when quick response is necessary.

Twist-on, double-wall lid with closed-cell gasket provides sealed and secure closure to protect sorbents from moisture, dirt and damage. Rust- and corrosion-free 100% polyethylene is durable to withstand rough handling. All-in-one design for easy maneuvering; two attached wheels and built-in handle mean no dolly or material handling equipment is needed.
